China Regulations on Imports Prevention and control of Zika virus Update

11 August 2016

Hamburg Süd has been advised by Chinese Authorities to an update on the policy to control cargoes arriving in Chinese territory from origins affected by the ZIKA virus. The latest update has expanded the origin area to include all shipments from the United States to China.

All shipments from such countries are required to present a “Mosquito Eradication Certificate” during the customs clearance process. It is the shipper’s responsibility to obtain the certificate issued by qualified entities prior to loading. For shipments arriving at destinations in China without such a certificate, the consignee may apply for mosquito eradication with the China Inspection and Quarantine Bureau (CIQ). The service and related fees applied by CIQ vary by port and location.
